eciGroup Employee Spotlight

MaKenzie Cuthie

**What was your starting position, and with which company?
eciGroup, as the Multimedia Specialist!
(aka the "New Derek")**

What is your favorite thing about your job?

This is only my third week, but so far my favorite thing is having the opportunity to meet everyone. I love that this position gives me the chance to interact with so many people!

What are your hobbies?

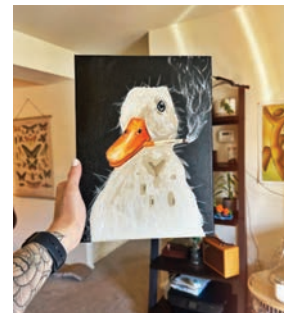

My primary hobbies are jiu-jitsu and trying different craft breweries, but I cycle through hobbies depending on the time of year. When its nice out I spend most of my time hiking, kayaking and fishing. During the winter months enjoy baking and painting.

What is something about you that your co-workers might not know?

I broke my leg last Feburary ('23) skiing in Vermont and was on crutches for 8 weeks.

If you were stranded on a deserted island with only one thing, what would you take?

It wouldn't really matter - I wouldn't survive. Probably just my water bottle.

TRAVIS' 50TH BIRTHDAY

They say life begins at 50, but let's be real, so does the saga of finding your reading glasses every five minutes. But fear not, for the golden years come with their perks. For instance, now you have a valid excuse for forgetting people's names. "Sorry, it's not old age, it's just that I've met too many interesting people!"

On March 28th, eciWireless celebrated Travis' 50th birthday by decorating his office and declaring him "old". May your wrinkles be as few as your regrets, your laughter as contagious as your enthusiasm for early-bird specials, and your joy in reaching this milestone as boundless as the number of candles on your cake.

Happy 50th
Birthday Travis!

LOCALS' MARKET

DILLSBURG, PENNSYLVANIA

IN today's bustling retail landscape, where mega-stores dominate the market, there's a refreshing oasis for those seeking a more personal touch in their shopping experience – Locals' Market.

Locals' Market is owned by the Weaver Family of Wellsville. Mr. Craig Weaver described the following: With a vision inspired by a store observed two decades prior, Locals Market has quickly become a beacon of community spirit and personalized service. Central to the ethos of Locals' Market is the concept of "friendliness." Customers aren't just patrons; they're treated like old friends. It's this warm, welcoming atmosphere that sets Locals' Market apart from the impersonal nature of larger grocery chains. Employees are not only knowledgeable about the products but are also trained in the art of customer friendliness, embodying the essence of the community they serve. Drawing inspiration from beloved brands like Trader Joe's, Locals Market offers a unique selection of products tailored to the specific needs and preferences of its clientele.

DISH WIRELESS DOWNINGTOWN STEALTH SILO

DOWNINGTOWN, PENNSYLVANIA

*John DeGregorio
Project Manager*

Dish Wireless antenna and equipment installation on a stealth silo located along the Pennsylvania Turnpike. A custom steel equipment platform was fabricated and installed inside the silo at the 130' elevation. This platform is used to support Dish's antennas. Once the platform was installed we cut and removed (3) 8' high x 12' wide x 6" thick pieces of concrete at each antenna location. The openings were then framed out and covered with RF friendly stealth panels.

Homewood at Frederick Meadows Health Care Center

FREDERICK, MARYLAND

Tony Scheib

Zavian Wall

This extensive renovation project is now nearly 50% complete. Tony Scheib is heading up the job on site, with assistance by Zavian Wall.

Scope of the project for this Senior Living facility includes updates and renovations to 120 resident rooms and common areas. The work involves removing carpet wallcovering and adhesive in the corridors, installing acrovyn wall protection in resident rooms, adding new knee walls in kitchen areas, repainting all areas with updated color schemes, and other miscellaneous renovations.

Tony, along with Zavian, works closely with the staff at the Meadows Center, as this is a fully occupied facility. Residents are moved in and out of their rooms as work progresses, so safety and respect for the Homewood staff and residents receives equal priority with construction progress.

STANDDOWN TRAINING 2024

Workplace safety should be a paramount concern for every organization - that's why eciGroup holds a biannual Safety Stand-Down session. Craig Shaffer with Safetyworks has been the safety director for eciGroup and our affiliates since 2009.

According to Craig, we coordinate safety on a variety of different levels. We have written programs that we pull together, and we have a safety committee that meets every month, but the largest part of our safety program is the training we do.

Craig says, "We do safety stand-downs together once a year, usually one for supervisory and one for non-supervisory field personnel. The stand-downs give us a day to come together and discuss a lot of facets of our work that require some type of safety planning. We talk about how to prepare for high-hazard activities, where there are fall hazards, electrical hazards, excavation hazards, and other big-ticket items. We talk about personal protective equipment, and how to use our gear and our equipment safely.

Who is eciGroup?

eciGroup is a south central PA based commercial construction group that serve the majority of south central, central, and some north central PA regions. eciGroup's affiliate companies (eciConstruction, eciService, eciWireless, and MidState Mechanical and Electrical) are currently seeking part time summer help, paid co-op opportunities throughout the school year, as well as full time positions upon graduation.

If you are 17 years of age or older and are currently enrolled in a construction trade (carpentry, masonry, welding, plumbing, mechanical, electrical, etc.), come learn while you work for a company that provides great pay and a positive work environment. eciGroup also offers excellent benefits as well as a sign on bonus for all successful full time new hires graduating from a trade school.
