Employee Spotlight

Jamie Haley

What was your starting position, and with which company?
eciGroup, as an Accounting Administrator

What is your favorite thing about your job?

So far my favorite thing is learning the different accounts and putting faces to names.

What are your hobbies?

I really like building and fixing things, but when I have time I like hunting and fishing. It's getting a little tricky now because my 3 year old son is the same way, so he helps me with everything.

What is something about you that your co-workers might not know?

I am a can do type of person. I will always figure it out and get it done.

If you were stranded on a deserted island with only one thing, what would you take?

My pocket knife. That's all I would need.
